Notes

Example prices for two rooms. Not a price per square foot and not a crew rate.

Walls, trim, and prep are split so a second coat or a fussy door is not hiding inside 'paint the house.'

The color change was approved on October 8, 2026, and it is its own line. A verbal 'while you are here, do the ceiling too' does not belong on the bill until it is written down.

Paint and supplies are an example materials total, not a brand endorsement. Say the actual gallons on a real job if the client wants to see them.

Due 7 days after the walkthrough in this sample. No tax is applied. Add a rate if materials are taxable where you work. Check your state's rules.

Made as a free sample by PaidPilot (paidpilot.io). Replace the example figures before you send it.
