Total due			\$337.00

Payment methods: Credit/Debit Card, Cash, Check

Notes

Example prices for one private-lot tow. Not a city rate card.

The car is a 2014 Camry, plate EX-104, both made up. Pickup and drop are written out because a tow bill without those two places is just a number.

Loaded miles are 8 in this story, separate from the hook. The winch is its own line because the car was off the pavement. Delete it when you did not winch.

After-hours is on this ticket because the hook was at 11:40 pm. A daytime call would drop that line.

Storage is day 1 only, and only if the car is still in the yard when you hand this over. If they ride with you and pay at the drop, delete storage.

Release rules, signage, and what you may charge are not the same in every city. Check your state's rules, and the local ones, before you treat this layout as complete. Due when the car is released.

Made as a free sample by PaidPilot (paidpilot.io). Replace the example figures before you send it.
